Describe the placement strategy related to this specific grant request. Please explain shortly the reasons for the choice of the main educational fields and economic sectors and the average duration of the placements (Max 10 lines):

The aim of the placement mobility is to facilitate the contact of the students with the specific European environment in the field of economic, business and social activities. We have concentrated for the time being on three educational and economic fields because the actual contacts of the University allow a more facile solving of all the problems related with the placement mobilities. In the economic & business, constructions and medicine fields, there are good premises for the realization of the placement program. Moreover, there are more students interested in knowing the European practice in the field of business, construction and health security.
